CHART 8 - BUSINESS RETAIL END USER HIGH CAPACITY INTERNET ACCESS LINES

High capacity internet access lines provided to business end-users (excludes lines sold to other carriers under resale or lease agreements). Report actual line counts. Do not express high capacity lines in voice grade equivalents (VGEs). Include only lines that provided the customer with access speeds exceeding 200 Kbps in at least one direction during off peak periods. If a service is not offered then enter n/o in the appropriate column.
